BLACKBERRY PATCH, FINE SYRUPS OF THE SOUTH, RECEIVES SUPERIOR RATING FROM THE AIB

Blackberry Patch, South Georgia manufacturer of a collection of whole fruit and nut syrups, received a “Superior Rating,” the highest evaluation, in a food safety audit by AIB International (America Institute of Baking). The institute’s mission is to protect the safety of the food supply chain and deliver high value technical and educational programs through strict independent inspections, superior audits and training.

Blackberry Patch all natural syrups are unique because they combine the best ingredients, whether that’s the purest spices or the ripest whole berries and fruits. Open kettle cooking in small batches and tender loving care make Blackberry Patch syrups so delicious. Also, these syrups have a drizzled waxed top that serves as a natural gift wrap.

Blackberry Patch products are available in department stores, gift shops, specialty food stores and travel destinations in more than forty states. Mama’s Choice brand is offered in specialty food stores and in selected regions of Whole Foods and other specialty retailers. The products are sold at www.blackberrypatch.com.
