

BLACKBERRY PATCH INTRODUCES RICH, FLAVORFUL SYRUP

Cinnamon Maple Syrup Debuts At Winter Fancy Food Show

That high value treat, maple syrup, has been combined with the strong flavor trend of cinnamon for a smooth, full-bodied syrup. The all-natural syrup reflects recent interest in the health benefits of cinnamon, and is an aromatic complement for breakfast foods, a glaze for meats or a topping for ice cream or cheesecake.

Packed in 12-ounce bottles, Cinnamon Maple Syrup joins a collection of delicious syrups, from the popular Maple Praline and Roasted Pecan to Whole Raspberry, Wild Blueberry and Whole Blackberry syrups.

What makes these syrups unique? The best ingredients, whether that's the purest spices or the ripest whole berries and fruits, open kettle cooking in small batches, and tender loving care make Blackberry Patch syrups so delicious. Also, these syrups have a drizzled waxed top that serves as a natural gift wrap.

Blackberry Patch products are available in department stores, gift shops, specialty food stores and travel destinations in more than forty states. Mama's Choice brand is offered in specialty food stores and in selected regions of Whole Foods and other specialty retailers. The products are also sold at www.blackberrypatch.com.
